PROFESSIONAL SUMMARY

Transitioning technical operations professional with 15+ years of experience in supporting complex systems, troubleshooting workflows, and maintaining audit-ready documentation in high-accountability environments. Proven ability to analyze issues, isolate root causes, document resolutions, and support large user populations of 800+. Strong foundation in incident response, system reliability, and customer-focused technical support. Seeking to transition technical expertise into software engineering through hands-on bootcamp training and mentorship, bringing proven ability to learn quickly, document thoroughly, and solve operational challenges in structured environments.

SKILLS

Technical Troubleshooting & Root Cause Analysis • Incident Documentation & Escalation • System Support & Workflow Optimization • Data Management & Analytics • Process Improvement • Windows 10 | macOS • Compliance & Audit-Ready Documentation

EXPERIENCE

Technical Operations & Systems Support Lead May 2025 - Present
Department of the Army Fort Hood, TX

- Supported and troubleshooted multiple enterprise systems impacting 150+ users, identifying root causes and resolving workflow and data issues.
- Maintained 100% audit-ready electronic documentation, ensuring data integrity, confidentiality, and compliance in regulated environments.
- Served as escalation point for complex system and process incidents, documenting resolutions and providing data-driven recommendations.
- Applied analytical problem-solving to independently resolve high-volume, time-sensitive cases aligned with service reliability expectations.

Senior Technical Operations Coordinator Apr 2024 - Apr 2025
Department of the Army Fort Hood, TX

- Coordinated systems support and data synchronization across multiple organizations supporting 880+ users.
- Mentored personnel on enterprise system usage, troubleshooting, and documentation best practices.
- Resolved complex operational and system issues through structured analysis, improving reliability and cross-team coordination.

Technical Team Supervisor – Systems & Maintenance Nov 2022 - Apr 2024
Department of the Army Fort Hood, TX

- Led technical teams responsible for diagnosing and resolving system and equipment issues in high-accountability environments.
- Managed \$1.8M in specialized tools and test equipment with 100% accountability and serviceability.
- Implemented standardized training and workflow processes that improved productivity and reduced operational disruptions.

Technical Training Developer & Systems Analyst Feb 2017 - Sep 2019
Department of the Army Fort Eustis, VA

- Designed and improved technical training systems and curricula, implementing 40 lesson enhancements ahead of schedule.
- Conducted system testing, inspections, and fault isolation on avionics training systems, identifying 115 faults and validating corrective actions.
- Reduced inspection timelines by four weeks through process optimization, saving \$25,000 and improving delivery timelines.

Continued...

Technical Instructor & Facilitator
Department of the Army

Dec 2015 – Oct 2022
Multiple Locations

- Delivered hands-on technical training to 2,800+ personnel, translating complex system concepts into clear, actionable instruction.
- Standardized documentation and instructional processes to improve knowledge transfer and learner outcomes.

Technical Systems Experience – Avionics (Condensed)

Avionics Systems Supervisor & Technician
Department of the Army

Mar 2010 – Dec 2015
Fort Campbell, KY

- Performed hands-on troubleshooting and fault isolation on complex avionics and electrical systems in safety-critical environments.
- Served as escalation point for advanced system failures; validated corrective actions and ensured accurate technical documentation.
- Led and trained technical teams on diagnostics, system testing, and compliance while maintaining strict accountability for tools and test equipment.

EDUCATION

Associate of Arts in Interdisciplinary Studies
Liberty University | Dec 2021

Bachelor of Science in Business Administration
American Military University | Expected May 2026

CERTIFICATIONS

Lean Six Sigma Yellow Belt
Veteran Transition Solutions | Issued: Jan 2026

Federal EEO Counseling Certification
Preempt Corp | Issued: Feb 2026

Introduction to Software Engineering
IBM (Coursera)| Issued: *(In Progress)*
